

# Request for Clarification of Presentation points

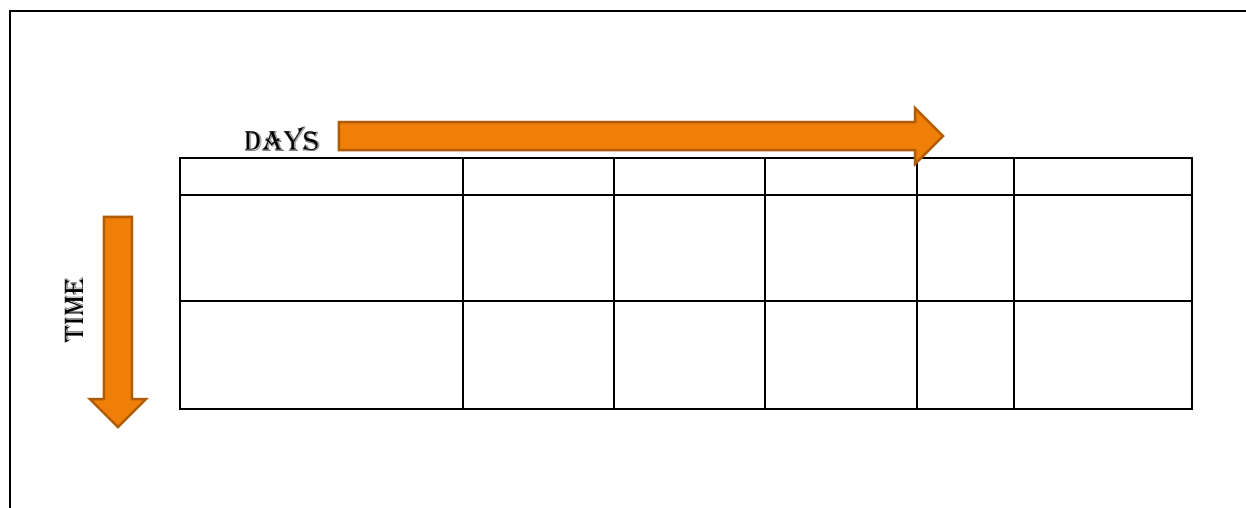

Eyog Yvon Léonce, Harvey Sama, Teyou Toure

We read through the document (**Time Table Generation.pdf**) and we had a brainstorming session and came out with a few points. We came out with this 2 main objects but we are not very sure if we understood the document correctly and so we would like to have the file you attached in French if the document already exist.

## 1 LISTS

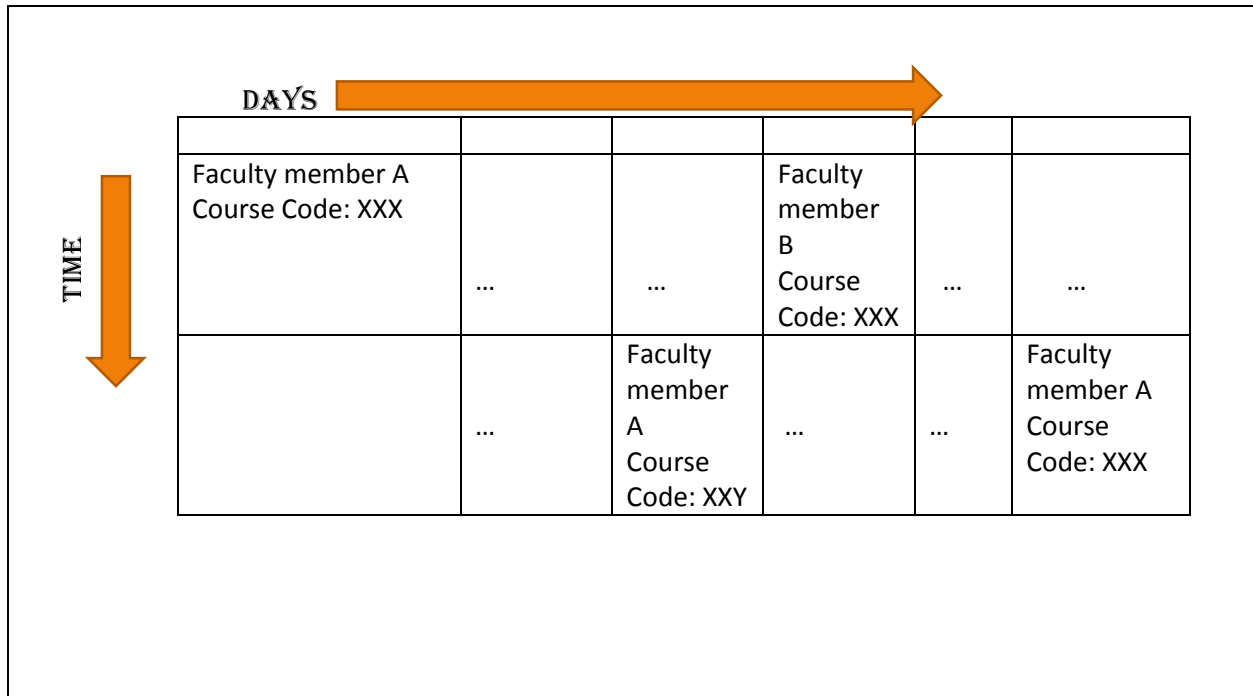

---

List should show the days of the week and the time in a calendar view. It should have read and write properties and owners.

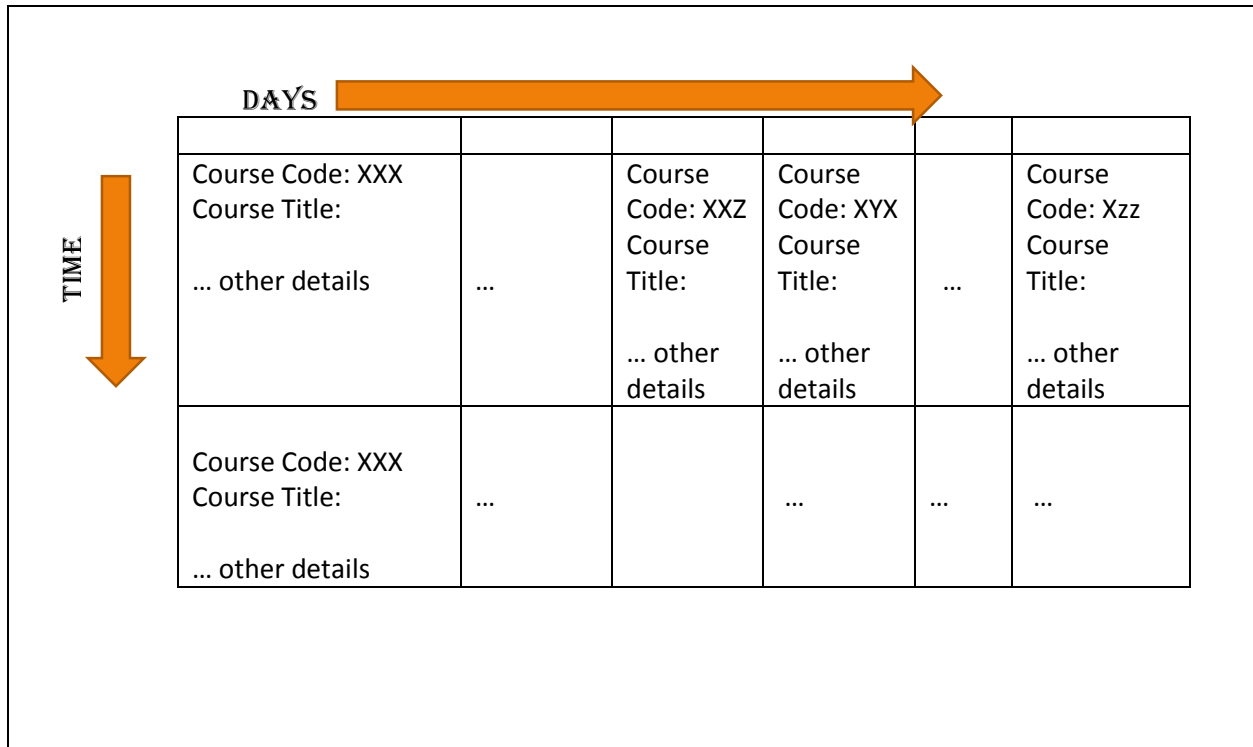

### 1.1 BLOCKED LIST

This is a list of faculty members who are booked. This should show the name of the faculty member, the course and location of the course the faculty member is taking. The list is owned and can be accessed by the HOD or the Dean.

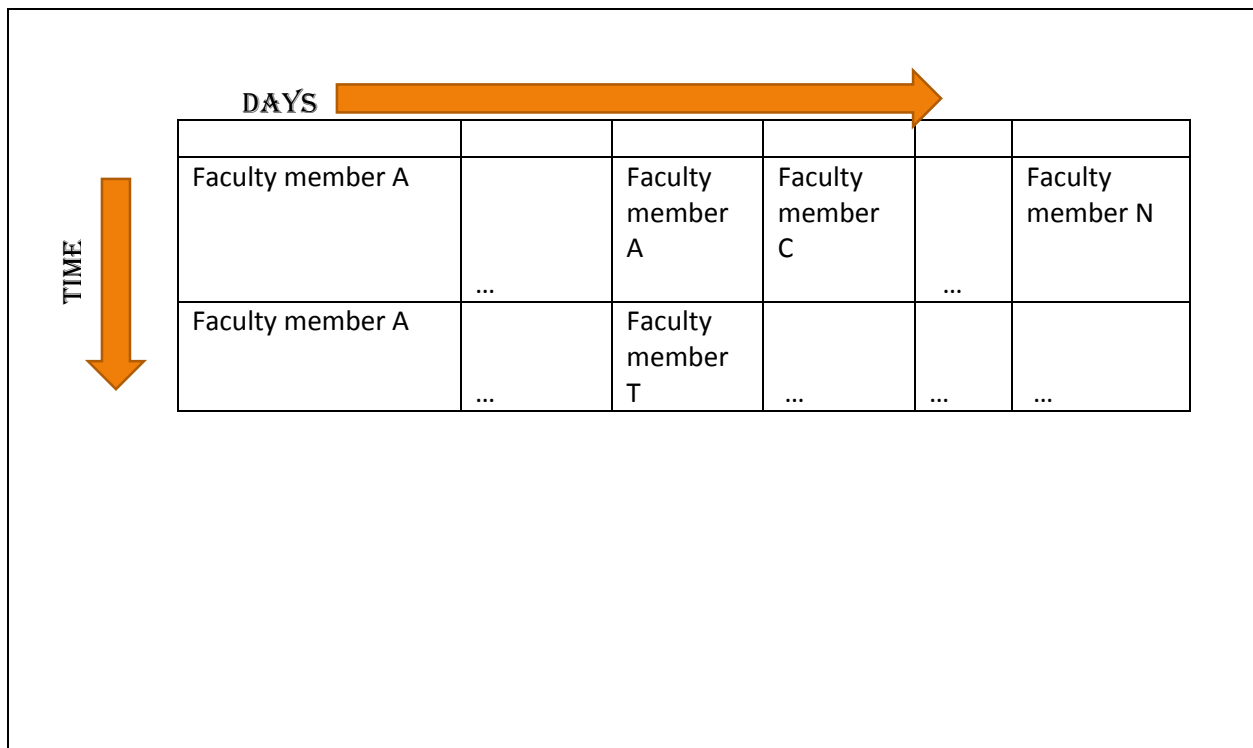

## 1.2 INDIVIDUAL LIST

Owned and accessed by the faculty member. It shows the courses and the locations where the faculty member is booked. This is the individual faculty time table.

### 1.3 FREE LIST

Shows the faculty members who are free for a given day X. Owned by everybody.

## 2 FACULTY MEMBER

---

This could be a lecturer, the HOD or the Dean.
